Minutes

Minutes from the May 2, 2008 SEC meeting minutes were approved.

Green Government

- Date for Green Summit is set for Tuesday, July 15.
- Likely will be at Historical Bldg. or Botanical Center.
- Confirmed Skip Laitner as a speaker, have also asked Alicia Ward of MEEC.
- Would like to hear from Wal-Mart/Sam's Club.
- Would like to hear from someone in state government (Pennsylvania, California).
- What are the goals of the task force breakout groups? Spelled out in EO 6.
- Third week of June pull together GG Coordinators for a pre-Summit meeting.
- Suggestion to have a presenter on teleconference technology.
- Try to bring in speakers via video-conference. No footprint Green Summit. Check with John Gillespie of ICN
- Might check with Principal or Methodist/Meredith about AV technology.

Green Gov't Summit Sub-committee: Deborah, Lee, and Tom S. have volunteered.

Mollie Anderson: IPI has six semi-loads of cubicle partitions to be refurbished that they are not able to sell. If can't determine what to do with them or how to market them to buyers, the partitions will likely go in the landfill.

Will be collecting utility data from state agencies. This data survey will be first shot. Will likely receive the “easiest” data to collect. Go through it and then dig deeper. Question for survey - Is space leased? How much time is left on lease?
